

COMMUNITY UPDATE

16th September 2021

Dear Community Member

We wanted to notify you that, over the coming weeks, we will be undertaking a number of investment projects to maintain and upgrade our operations.

Work is currently scheduled to be undertaken at various points between Friday 17th September and Sunday 3rd October.

During this time, those living close to the site may hear or see some intermittent changes including planned use of our flare, potential increase in noise and short periods of slightly darker output from our stacks.

As always, our team are working hard to minimise duration and any potential disruption to our host communities.

We thank you for your patience and understanding while we complete this essential work.

Best regards

Annita McCurdy
Process Manager
