

COMMUNITY UPDATE

22 October 2021

Dear Community Member

We want to advise you that we are working towards re-starting process units over the next few days.

While we conduct this planned work, some additional flaring may be noticeable for a period but we will work hard to minimise duration.

The use of our flares is completely safe and controlled.

We apologise in advance for any inconvenience that this essential work may cause and we thank you for your patience and understanding.

Regards

Annita McCurdy
Process Manager
