

COMMUNITY UPDATE

11th April 2022

Dear Community Member

We want to advise you that due to an external power disruption, we currently need to use our flare.

As we work to introduce steam which helps the flame burn clean, there may be intermittent periods of the flare being smoky.

The use of our flare is completely safe and controlled.

Our team is working round-the-clock to resolve the issue and we apologise if the use of our flares cause any concern or disruption to our host community.

Thank you for your patience and understanding.

Regards

Annita McCurdy

Process Manager
