

# COMMUNITY UPDATE

**25<sup>h</sup> April 2022**

Dear Community Member

Further to our communication last week, we wanted to advise you that following completion of necessary works on the valve, will be re-starting the steam unit today.

Those living in the immediate surrounding area may hear some additional noise for a short period while we conduct this planned work, however we are taking steps to minimise this wherever possible.

A slightly darker output might also be visible from one of our stacks at times during the start up.

We apologise in advance for any inconvenience that this essential work may cause and we thank you for your patience and understanding.

Regards

**Annita McCurdy**  
**Process Manager**
