

# COMMUNITY UPDATE

**10<sup>th</sup> June 2022**

Dear Community Member

We want to advise you that after a short period of essential maintenance, we will be starting up one of our steam generating units late afternoon/early evening on Saturday. We appreciate that this timing is not ideal however, the unit is a key element of our operations so we are looking to return it to service as quickly as possible.

Those living in the immediate surrounding area to our site may hear some additional noise while we conduct this planned work however we are taking steps to minimise this wherever possible.

A short period of flaring might also be visible during this work.

The use of our flares is completely safe and controlled.

We are sorry for any inconvenience that this essential work may cause and we thank you for your patience and understanding.

Regards

**Annita McCurdy**
